

harvey & harriet

Harvey and Harriet is created by Eric Jensen of Booker Vineyard, in an attempt to make a wine that his parents would love and could afford. It is a wine that's made by hard work, the best vineyard sites, the best barrels, and the best team. A world class wine for everyone who appreciates high quality without the high price tag.

This new addition to the Harvey & Harriet family brings a fun, medium gold tone at first glance. Hints of tangerine, pineapple, and honeydew exude from your glass in this aromatically driven delight. A subtle saltiness with nutmeg undertones lead you into this lighter in body wine that still manages to possess a unique, restrained creaminess that can be appreciated by all. The burst of bright, refreshing acidity leaves one immediately ready for the next sip. The precise and understated oak finish show that this playful wine has a serious side to it as well.
